

Best IT distributor of the year 2006 awarded

Czech IT distributors as seen by resellers and IT solutions suppliers

Marek Šalanda

Since September 2006, you had the opportunity to vote in the opinion poll for the best IT distributor of the year 2006. The order of precedence of individual distributors had varied throughout the poll and the number of your votes grew with each month. I point out again that each of you was allowed to vote only once, had to be an employee of an ICT company or work in ICT field. Voters weren't allowed to be employed by any of the distributors nor work for a company with a proprietorial connection to such distributor.

There was a total of 627 voters from **588 companies** (of diverse organization IDs) active in ICT field.

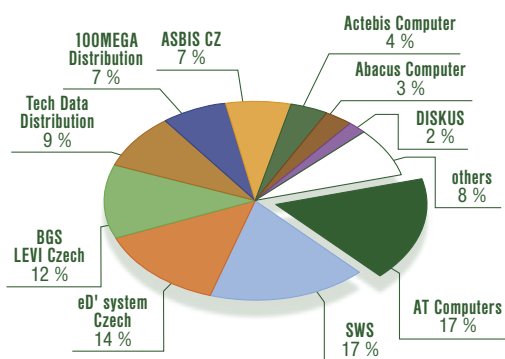

Twenty-five distributors were nominated for the poll: Abacus Computer, Abakus Distribution, Actebis Computer, AGEM CZ, AGORA plus, Anixter,

ASBIS CZ, AT Computers, Avnet, BGS LEVI Czech, DISKUS, DNS, eD' system Czech, ELKO Trading, Euro Media Distribution, IT Planet, KONSIGNA, LAMA Plus, PENTA CZ, RRC CZ, Servodata, SOFT-TRONIK, SWS, Tech Data Distribution and 100MEGA Distribution.

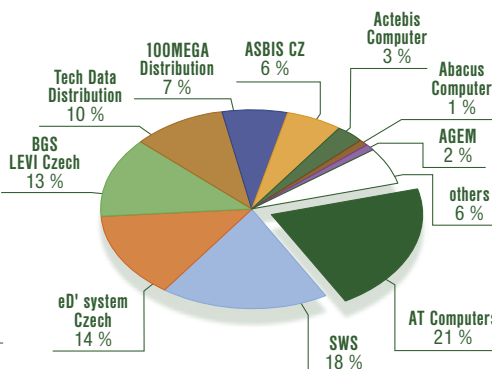

The polling finished on January 15, 2007. The final results were presented at a gala announcement on the ground of Prague hotel Dorint Novotel Praha Don Giovanni on February 15, 2007.

Considering how slight was the difference on the first positions, we chose to name 5 distributors who received the award runner-up *IT distributor of the year 2006*. Every nominee who collected 10 or more per cent of your votes received this award.

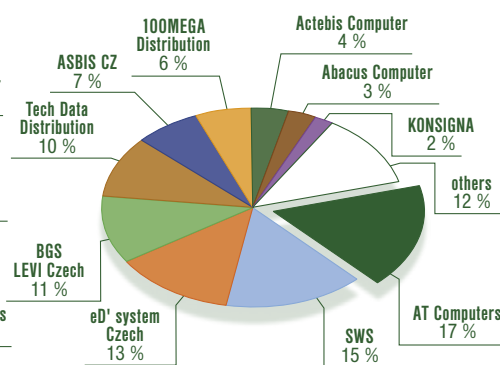

↓ From which distributor do you prefer to purchase?

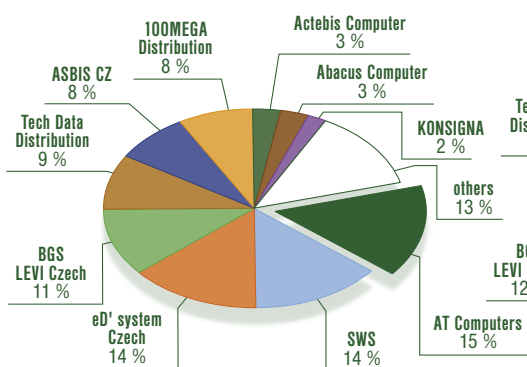

↓ From which distributor do you prefer to purchase over the internet?

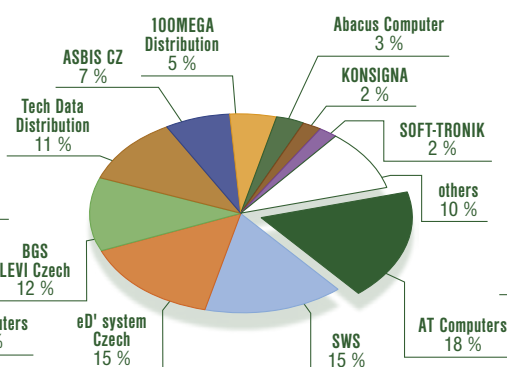

↓ Which distributor attends to you the best?

↓ The sellers of which distributor do you enjoy the best communication with?

↓ Events held by which distributor do you visit most often?

↓ Overall assessment
